Item 4 ANNUAL REPORT OF THE DIRECTOR-GENERAL ON THE ACTIVITIES OF THE ORGANIZATION

Consideration of the report and preparation of comments to be made by the Chairman in presenting the report to the General Conference
(document 6C/3 and addendum)

The report was presented by the Director-General and, after a discussion, the following resolution was adopted:

“The Executive Board,

Having taken note of the Director-General's Report on the activities of the Organization from April 1950 to May 1951, which is to be presented to the General Conference at its Sixth Session,

Expresses its satisfaction at the improved administrative machinery and methods as well as at the progress made in carrying out the programme,

Congratulates the Director-General on the work he has done and on the tireless zeal with which he has carried Unesco's message to all parts of the world,

Declares to the whole Secretariat its appreciation of the efficiency and devotion with which its work has been performed,

Hopes that Unesco's efforts, to the effectiveness and necessity of which this report testifies, will be increasingly integrated through ever closer co-ordination of the activities of governmental departments, national commissions and non-governmental international organizations with those of the Secretariat,

Recognizing the financial burdens which weigh upon Member States at the present time, but believing that no effort on behalf of peace can be judged negligible if its immediate result is to develop international co-operation and understanding through education, science and culture,

Recommends that the General Conference, having regard to the achievements shown in this Report and to those promised from plans already set in motion, should furnish Unesco with sufficient funds to enable its work to be pursued and its influence maintained at least at the present level,

Reaffirms its conviction that Unesco's aims cannot be attained by material means alone, but that they demand, in those who believe in them and wish to further them, the spirit of sacrifice inseparable from a genuine faith in the dignity of man and brotherhood of nations".

The comments, based on the Board's discussion, made by the Chairman in presenting the report to the General Conference will be found in document 6C/D/3 and in the verbatim record of the Third Plenary Meeting of the Sixth Session of the General Conference.

Desirous, on the one hand, of adhering to the practice of holding meetings of the General Conference both on the territory of Member States situated in different parts of the world and at the Organization's headquarters,

Confirms its whole-hearted support of the Secretary-General's endeavours to achieve and maintain conditions of peace through action by the United Nations under the Charter,

Pledges the Organization's determination to exert every effort, within its own fields of competence, to contribute to the success of these endeavours,

Reaffirms its intention, as manifested in the Basic Programme and in the 1952 Programme of the Organization, to pursue vigorously its efforts to bring about universal respect for and compliance with those articles in the Declaration of Human Rights which concern it, and to continue its active participation in the expanded programme of technical assistance launched by the United Nations,

Affirms its conviction that the United Nations family of Organizations is potentially the most effective machinery the world has ever had for organizing international action to eliminate human suffering, but that it can only act efficiently and successfully with the support and active participation of Member Governments responding to international initiatives; and therefore that Unesco, together with the other Specialized Agencies and the United Nations itself, will only fully realize the aspirations of its founders when it enjoys the full collaboration of all nations in its work".
